

We provide training in Confined Space Entry, Safe Work at Heights, Gas Detection & Breathing Apparatus
We do confined space risk assessments • Confined space audits • Confined space standby staff • Safety equipment sales

Confined Space 1 Day Course- ENTER & WORK

This one day course qualifies your workers to enter and work in a confined space. This is the first day of a three day FULL ACCREDITATION course. Days 2 & 3 further qualify your staff to act as a confined space standby and confined space rescuer.

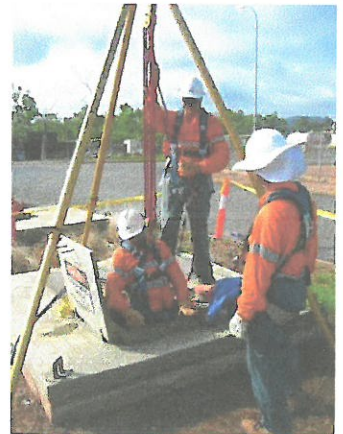

Welcome to Sydney's only professionally built confined space training centre. At this centre your staff experience as close to real work place conditions as is possible. No simulations here like with other training organizations.

TRAINING TOPICS

- Confined Space Legislation & Workplace Hazards & Safe Work Procedures
- Confined Space Risk Assessment & Entry Permits
- Confined Space Equipment – correct fitting of a CS harness, setting up & using tripods, VED devices & reading gas monitors.

Participants are supplied the following learning materials for the programme:

- Confined Space Manual
- Risk Assessment, JSA & Entry Permit Blanks

ACCREDITATION

Upon completion of our confined space training program participants will receive a Statement of Attainment with the following "Units of Competency":

MSMWHS201
RIIWH5202D
MSMPER205
MSMPER200

Conduct hazard analysis
Enter and work in confined spaces
Enter confined space
